

September 3, 2008

Our HydroMassage is constantly running. The bed is ideal for relaxing and preparing patients for their adjustments, so when a patient comes in, HydroMassage is typically their first stop. With nearly 30 patients a day on the bed at \$20 a piece, we have had no problem covering the monthly cost of the bed.

Feedback from patients has been excellent, as well. Some will wait 20 minutes just to get time on the bed before their adjustments, and we get several people coming in asking just to use the HydroMassage unit. The HydroMassage basically sells itself to our patients, and if we had any extra space, I'm sure we'd get another bed.
